SUMMARY

Aspiring Software Engineer with a strong foundation in Java, Python, SQL, DBMS, and Object-Oriented Programming. Hands-on experience developing software applications through academic and personal projects, with a passion for problem-solving and clean coding. Quick learner, collaborative team player, and eager to contribute to building innovative and scalable software solutions.

EDUCATION

Bachelor of Technology in Computer Science Engineering(Cyber Security)

09/2023 – Present

Rajeev Gandhi Memorial College of Engineering and Technology, Nandyal

Nandyal

GPA: 7.9

PROJECTS

SITA - Security Incident Triage Agent (Ai-Based Cloud Security Security System)

Tech Stack: Cloud Run, ADK(Agent Development Kit) Agent, Pub/Sub, Cloud Logging, Node.js, MongoDB, Socket.io, Gemini

- Developed a cloud native security for high volume log ingestion and analysis.
- Designed scalable pipeline (pub/sub -> cloud -> MongoDB->Dashboard) for automated detection.
- Automated incident triage, reducing manual investigation time by 70%.

Zero Trust Security Platform – AI-Powered Adaptive Access Control System

Tech Stack: Python, FastAPI, Next.js, TypeScript, Tailwind CSS, MongoDB Atlas, Docker, Google Cloud Platform (Cloud Run, Cloud Build), REST APIs, Git, GitHub

- Developed an AI-powered Zero Trust Security Platform that continuously analyzes user behavior, calculates real-time risk scores, and dynamically enforces secure access policies.
- Built scalable REST APIs using FastAPI and integrated MongoDB Atlas for secure data management and real-time behavioral risk analysis.
- Designed and implemented a responsive web interface using Next.js, TypeScript, and Tailwind CSS to visualize security insights and risk analytics.

SKILLS

Languages and Core:

Java, Python, C, JavaScript, HTML, CSS

Tools & Frameworks

Git, VS Code, VMware

Databases :

Firebase, MongoDB, SQL, Supabase

COMMUNITY EXPERIENCE

Content Creator

NEXUS SWARM

- Created engaging content for social media platforms to enhance audience interaction.
- Researched trending topics to develop relevant and timely blog posts.
- Proposed creative ideas to engage followers with different content types and formats.

ACHIEVEMENTS

- Selected for the Final Stages of the World's Largest Agentic AI Hackathon, a Guinness World Record-recognized global AI competition.
- Secured 1st Place in the Colab Coders Challenge, conducted as part of the GDG TechSprint Campaign.
- Top 10 Finalist in the ArcticX: Winter TechSprint Hackathon, organized by Google Developer Groups (GDG) On Campus.

CERTIFICATES

- AWS Certified Cloud Practitioner 
- Cybersecurity Fundamentals -IBM SkillBuild
